## TO CLOSE AT NOON.

**Greensboro Banks Will Not** Keep Open After Dinner on Saturdays.

Hereafter the banks of the city will close on Saturday at 12 o'clock. Every one who intends getting money from the banks on Saturdays will do well to bear this fact in mind. The reason for this change in the hour lies in the fact that Saturday is a legal holiday, and drafts cannot be legally protested on that day. The banks in large cities close at 12 o'clock on Saturdays, and Greensboro, now a large city, will do likewise. This change in the hour does not affect the People's Bank, which will keep its customary hours.

## MOB ATTACK BY STRIKERS.

**RAILROAD EMPLOYEES DRIVEN OFF** AFTER BEING SHOT AT.

**Men of the Southern System Stormed in** a Car at Columbia, S. C.—Tied Non-Union up and Drove Them Out of Town—Four of the Mob Wounded.

Columbia, S. C., June 24.—The first blood shed in a strike riot in South Carolina was spilled this morning at 4 o'clock in the Southern Railway shops in this city. These are large shops and the striking machinist have made strong efforts to keep them idle. It became known yesterday that there were forty men at work in the shops. Many brought from other places had been induced to desert the company. Several days ago Supt. Welles applied to the Mayor for policemen to protect the company's property. This was refused, as the Mayor declared there was no danger. One policeman is on that beat.

Just before daylight this morning about one hundred men with faces blackened or wearing black masks, attacked the north fence of the yards which comprise twenty acres, quickly made a break and marched in. There were forty-two men in the yards, sleeping in two cars. One of the cars during the night was switched to a remote corner and escaped detection. The strikers advanced on the other car in which twenty men were asleep. There was one guard, a man named Meyers, walking by this car. He saw the column advancing and ordered the men to halt, and tell their business.

A spokesman said they had come to release men being held against their will. Twice the guard ordered a halt, and when the leaders were within thirty yards he fired both barrels of a shotgun at the mob. At the same moment a pistol ball struck Myers in the forehead, but glanced around the bone. He got behind cover and used his revolver.

The strikers attacked the car and called on the men to come out. There was no response, and the rioters opened fire. The car looks as if it had run the gauntlet of sharpshooters. There are 200 bullet holes in it. The occupants escaped by throwing themselves on the floor. Finally all crawled out and were tied up by the strikers who marched then north, by the Southern's track for two miles, beating everyone along the way with sticks and pistol barrels. The non-unionists were all badly cut up. The one policeman begged the strikers to be merciful.

Two hours later an engine with the master mechanic and yardmaster went up the road and between the three and seven-mile post picked up nineteen of the beaten men. Only one refused to come back.

A half hour after the attack two physicians received hurry calls. They reported attending four men wounded in thigh, abdomen and head. If they know the names of the wounded men they will not give them.

On application, Mayor Earle detailed a squad of policemen to guard the shop. They are now on duty. He would not allow them within the yards. It is believed at least a half dozen strikers were wounded by Guard Meyers.

## TO CIRCULATE A PETITION.

**Walker Avenue Residents Want** Their Street Straightened Out.

A petition will be put in circulation tomorrow among the people residing on or owning property along Walker avenue. The object of the petition will be to get the board of aldermen to have Buchanan street straightened into Walker avenue. Such a step will improve wonderfully the appearance of the city in that section.

## THE WEATHER.

Greensboro,—Highest temperature past twenty four hours ending eight o'clock this morning '88 lowest, 63, rain fall .51

Mr. S. M. Mattox, left last night for Bluefield, W. Va. Mr. Mattox's family lives in the flood district and he fears his people may have been lost, not hearing from them.

## U. S. DEPUTIES DRIVEN AWAY.

**MANY SHOTS WERE FIRED AT THEM** BY THE STRIKERS.

**A Posse of Officers Who Were Endeavor-**ing to Serve Judge Jackson's Injunction on the Striking Miners in West Virginia Made to Seek Safety in Flight.

Huntington, W. Va., June 24.—Today a posse of United States deputy marshals, led by A. C. Hufford, of Bluefield, were fired on by the strikers and forced to flee from the coal fields at Mattewan. Yesterday afternoon the marshals, set out from Bluefield to reach the scene of the miners' riots. Within 20 miles of Thacker they found that they could proceed no further by rail on account of the flood. They struck out across the mountains encountering almost unsurmountable difficulties and late Sunday afternoon reached the end of their journey. Proceeding to work, they began serving notices of the injunction which had been issued by Judge Jackson.

A mob of strikers followed armed to the teeth with firearms. On all sides could be heard the cry, "down with government by injunction!" Men threatened them with their weapons, women called down the vengeance of heaven upon them and children hurled stones. When nightfall came notice had been served on the strikers of all the coal companies, but one and that was to be served at Lick Fork Coal and Coke Company, at Thacker. Fearing an ambush they waited until morning and early today set out for Thacker. Some time before noon they attempted to serve the injunction papers at the above named colliery. A mob followed, enraged to desperation at the sweeping character of the injunction. One reckless fellow fired the first shot and quick as lightning the mountain sides echoed and re-echoed with resounding reports that followed the crack of 20 or 30 rifles. The deputies were forced to take refuge in flight and then barely escaped with their lives.

The strike situation is assuming a dangerous stage. Sheriff Hatfield has withdrawn all his deputies because it is said he does not believe in the policy being used to put down the strike. The United States marshals have been left alone and after being chased from the fields today it is believed that they will be strongly reinforced and ready to fight when they again appear to enforce the injunction.

## OFFICERS ELECTED.

**West Market Street Epworth** League Holds an Interesting Session.

Officers for the ensuing six months were elected by the Epworth League of West Market street church last night. A good crowd was in attendance, and much interest manifested. Four new members were added. The newly elected officers are as follows: President—Mr. C. H. Ireland. First Vice President—Mr. E. L. Sides. Second Vice President—Miss Bertha Wheeler. Third Vice President—Miss Hattie Watlington. Secretary—Miss Alma Winningham. Treasurer—Mr. C. C. Hinkle.

## OFF TO MOREHEAD.

**Dentists Leave This Morning to** Attend Meeting of Their Association.

Several dentists of this city left this morning for Morehead City to attend the sessions of the annual meeting of the Dental Association. The address of welcome will be delivered by Rev. H. M. North, and will be responded to by Dr. J. S. Betts. Those who went from Greensboro were Drs. John H. Wheeler, J. S. Betts, and G. W. Whitsett. "Doctor" Frank C. Boyles also went to Morehead, but his friends say they do not know whether he will come back a doctor or doctor-ed.

## Famous Blind Tom.

**Cleveland Plain Dealer.**

The Star Theatre was filled last evening, when the famous negro wonder, Blind Tom, accomplished many things in the way of piano playing. While Tom did many things that were remarkable, the most wonderful was his playing of an air that he could not have heard before. He invited any man in the audience to step on the stage and play any selection he chose and he would repeat it right after him. Mr. Wilson G. Smith, the composer, accepted the invitation and played one of his own compositions as yet unpublished, and of so recent a date that it has had no public performance anywhere. The blind negro sat down on the stool as Mr. Smith had left it, and repeated it, every note being true and correct. He also played Gottschalk's "Last Hope" Rossini's "Moses of Egypt," and several other numbers. He also repeated a speech he had heard in 1869 delivered by Stephen A. Douglas.

Church music is an acquired taste. The fellow who woos sometimes feels woozy.

## THE JURY CONVICTS BARKER.

HE MAY GET SEVEN YEARS IN PRISON.

End of the Trial of the Man Who Shot Rev. John Keller—The Verdict Was Not What He Expected.

New York, June 21.—The jury before which Thomas G. Barker, of Arlington, N. J., was tried for shooting with intent to kill Rev. John Keller, of the same town, took one ballot this afternoon and returned with a verdict of guilty. Under the charge of the court they could do little else. The jurors were told they must set aside all else and decide only if Barker with intent fired at Keller. That was the law and they must obey it. Notice of appeal was given by Barker's counsel. Barker to-night found himself once more an inmate of the county jail. He must remain there until \$10,000 bail is furnished. Before him stands a possible seven years' imprisonment and a fine of as much as \$2,000. Mrs. Barker was not in the court room to hear the verdict. She was in another part of the court house and when told of the verdict, sobbed bitterly. Mr. Keller was also absent and showed deep emotion when told of the verdict. Barker had acquitted. He based his hopes upon the strong plea of his counsel when he dwelt upon the unwritten law that a man has a right to kill where the sanctity of his home is assailed. Whatever the effect of this line of pleading upon the jury, it was swept away by the cold charge of the court that the story of the alleged outrage, or the outrage itself, if true was no justification of the defendants assault.

The court explained that he had admitted evidence that Barker had been told of an alleged assault, not because it had anything to do with the case, but because it was for the jury to decide, terminate if the story had anything to do with making the defendant criminally irresponsible. If they believe the defendant was sane at the time of the shooting they must convict. In his closing address, Prosecutor Erwin asked the jurors if the woman's course was the natural one. He said her story was improbable because Mrs. Barker would in the natural course have told her husband of the assault at once and failing that, would have made a confidant of a woman and not of another man. The jury's only ballot was unanimous for guilt and a unit for the highest degree charged. Mr. Keller, as soon as the trial was completed, issued a brief statement in which he absolutely denied the truth of the allegations that have been made and published by Mrs. Barker.

Barker will probably be sentenced on Thursday next and then his counsel will file the papers in an appeal to the Supreme Court. In an interview tonight he said: "I did not expect such a verdict. It seemed to me there was a reasonable doubt. I believe that no 12 men would convict me after hearing my wife's story. I believe that the Supreme Court will give me a new trial and that then my wife's story will be told."

## ECZEMA

Eczema sets the skin on fire. The acid poisons in the blood are forced out through the pores of the skin, causing intense redness, burning and itching. So terrible is the itching at times, especially when the body is overheated, that the almost distracted sufferer feels that he could tear the skin to pieces, and that he must scratch or go crazy. He knows from experience that this only makes matters worse, but, made desperate by the terrible burning and itching, he is for the time being indifferent to after effects. There are several forms of Eczema, the moist, or weeping kind, that comes in little pustules which discharge a watery, sticky fluid, which dries and peels off in bran-like scales. So profuse is the discharge at times that large scabs or crusts form, which are both painful and troublesome, and not easily removed. Red, disfiguring bumps and sores are symptoms of Eczema. The dry form usually attacks the head, hands and feet; the skin, becoming hard and rough, often cracking open and bleeding, and attended with much itching. Eczema depends upon a poisoned condition of the blood, and local applications, while soothing and cooling, and may to some extent relieve the inflammation and itching, cannot be considered cures, because external remedies do not reach constitutional or blood diseases. Salves, ointments, powders, lotions and soaps do more harm than good, by smearing over and sealing up the pores of the skin, thus forcing the poison back into the blood. S. S. S. antidotes and neutralizes the acid poisons and drives out of the circulation all impurities and humors, and the pure, rich blood that is carried to the diseased skin quickly allays the inflammation, opens the clogged up pores, and the skin becomes soft, smooth and ready to perform its proper functions. To be rid of Eczema you must first purify and build up the blood, and nothing so surely and effectually does this as S. S. S., the only guaranteed purely vegetable blood purifier. Send for our book on blood and skin diseases, and write our physicians for any information or advice you may desire. Medical advice and book free.

Mr. L. Marno, Escondido, San Diego County, Cal., writes: "My body broke out with a rash or eruption which in spite of all efforts to cure continued to get worse. The itching, especially at night, was simply terrible; it would almost disappear at times, only to return worse than ever. I had tried many highly recommended preparations without benefit, and hearing of S. S. S. determined to give it a fair trial, and was inexpressibly delighted when a few bottles cured me entirely, removing every blotch and pimple from my body. I shall not fail to recommend S. S. S. whenever an opportunity occurs."

### TO GROW OUR OWN COFFEE.

Immense Demand of United States to Be Supplied in Coming Years by Our Island Possessions.

The prospect of a return of permanently peaceful conditions in the Philippines and the present existence of conditions in Porto Rico and Hawaii favorable to American producing and commercial enterprises lends additional interest to some figures just compiled by the treasury bureau of statistics regarding the coffee consumption of the United States and of the world. The people of the United States are sending out of the country more than a million dollars a week in payment for coffee consumed in this country, all of which could be readily produced in Porto Rico, Hawaii and the Philippine islands, which have already shown their ability to produce coffee of a high grade commanding high prices in the markets of the world. Porto Rican coffee has long been looked upon as of high grade, and for many years has commanded high prices in the markets of Europe, and the developments of coffee culture in Hawaii during the past few years have also been very satisfactory in the quality of coffee produced and the prices realized. In the Philippines the product is of high grade, and the fact that in physical conditions and climate the islands are very similar to those of Java, the greatest coffee-producing islands of the world, suggests great possibilities to those who desire to see American money expended under the American flag. The fact that the United States is by far the greatest coffee-consuming country of the world and is steadily increasing her consumption further suggests that American capital and energy may turn their attention to this promising field now opened in the islands where American enterprise can safely enter upon business undertakings.

### SEEKING AMERICAN IDEAS.

English Woman Studying Hygiene and Domestic Economy as Taught in Schools in This Country.

Miss Alice Ravenhill, of England, who is making an official tour for educational study in this country, and who has been visiting the various schools and colleges of New York city, has left for a visit to other cities. Miss Ravenhill holds a unique pedagogic position in England, being inspector of hygiene and domestic economy classes under the technical instruction committee of the county council of the West Riding of Yorkshire. Her work is to train teachers who can carry their hygienic and economic discipline into the elementary and other schools of the kingdom. As a result of Miss Ravenhill's work interest in the subject is rapidly increasing. The board of education for England and Wales and the sanitary institute of London united with the committee by which she is regularly employed to send her to this country. While here she will prepare reports on certain aspects of the teaching of domestic science and hygiene in schools and colleges of various types in the United States. Upon her return these will be published for the guidance of educational authorities, teachers and parents. Among the cities which she will visit are Boston, Philadelphia, Washington and Chicago.

Australia's first measured wool clip was 20,000 tons in 1821. This has now risen to 2,700,000.

## Pretty Children

"We have three children. Before the birth of the last one my wife used four bottles of MOTHER'S FRIEND. If you had the pictures of our children, you could see at a glance that the last one is healthiest, prettiest and finest-looking of them all. My wife thinks MOTHER'S FRIEND is the greatest and grandest remedy in the world for expectant mothers."—Written by a Kentucky Attorney-at-Law.

### MOTHER'S FRIEND

prevents nine-tenths of the suffering incident to childbirth. The coming mother's disposition and temper remain unruffled throughout the ordeal, because this relaxing, penetrating liniment relieves the usual distress. A good-natured mother is pretty sure to have a good-natured child. The patient is kept in a strong, healthy condition, which the child also inherits. MOTHER'S FRIEND takes a wife through the crisis quickly and almost painlessly. It assists in her rapid recovery, and wards off the dangers that so often follow delivery.

TUESDAY, JUNE 25.

## Baby Born With Needle in Its Stomach.

New York Sun.

A needle was found by Rontgen rays on Saturday evening in the stomach of Mary Lang, 15 months old, who was cried almost all the time since her birth and shown indications of pain in the stomach. She was taken to St. James Hospital in Newark from her home at 123 Adams street, and the hospital physicians sent her to Dr. Frank Devlin, who has a Rontgen ray apparatus. He discovered a dark line, and by careful manipulation of the flesh brought a needle to the surface and extracted it with tweezers without making an incision.

He was of the opinion that the needle was in the child before its birth and cited a similar case of the Dolan baby of Plainfield, from whose stomach a needle was extracted a few days ago. The needle taken from the Lang baby was blackened but intact.

## Sheriff Section Changed.

Montgomery, Ala., June 24.—The section relating to a sheriff's tenure of office and suspension from office and impeachment, when he permits prisoners to be taken from him and lynched, was reconsidered by the constitutional convention today and one of its features stricken out. It now reads as follows:

"A sheriff shall be elected in each county by the qualified electors thereof, who shall hold his office for a term of four years unless sooner removed, and shall be ineligible to such office as his own successor. Whenever any prisoner is taken from jail or from the custody of a sheriff or deputy and put to death or any harm, or suffers grievously, owing to neglect, connivance, cowardice or other grave fault of a sheriff, such sheriff may be impeached under section 2 of article 7 of the constitution, and the Governor, when satisfied after hearing the sheriff, that he should be impeached, may suspend him from office for such time as he may think proper, until the impeachment proceedings are finally disposed of and such sheriff when impeached shall not hold any other office during the time from which he has been elected."

An amendment to the executive department was offered by Mr. Fitts, of Tuscaloosa, providing that when the Legislature increased the Governor's salary such increase shall also apply to the incoming Governor. After a heated debate the amendment was adopted.

## TWO BOYS DROWNED.

## Jumped in a Swollen Creek to Save Their Brother and All Went Down.

Suffolk, Va., June 24.—While seeking to save an eight-year-old brother who was being swept away in a stream, two sons of John Ely, colored, of Exit, Va., this afternoon gave up their own lives. The older boys, aged 10 and 12 years, heard from the bank of Scott's Creek an appeal for help, and turning they saw that their brother had got beyond his depth and was being borne down by the current. With no thought of their own peril the boys jumped to the rescue. They reached the drowning boy and struggled to drag him from the force of current but could not.

A spectator says the elder boys, when they realized the futility of saving their brother, could have reached the shore, but theirs was the kind of heroism which called for self sacrifice and the three brothers, their arms locked about each others' necks, went down together. The bodies were recovered.

## SAMPSON'S HEAD ON MEDAL.

## Design for West Indian Souvenirs Adopted—Special Medal for Hobson, Blue and Others.

Washington, June 24.—Acting upon the unanimous recommendation of the naval board of awards, Secretary Long today approved the designs for the two medals provided for by Congress to commemorate the achievements of the United States navy in the campaign in the West Indies during the Spanish-American war. Of these two medals the first is known as the battle medal and the second as the meritorious service.

The board states that it has placed

Sampson's head upon the medal because he was commander-in-chief of the West Indian squadron, as Dewey's was placed on the Manila medal. The Sampson portrait is a profile taken from a likeness made just before the outbreak of the Spanish war. On the face of this medal the inscription reads: "United States Naval Campaign in the West Indies, 1898. William Thomas Sampson, Commander-in-chief."

The suspending bar above bears the American eagle above a design in oak leaves. The reverse of the medal marks the government's recognition of the splendid services of "the man behind the gun." It portrays a spirited scene on the gun deck of an American man-of-war in full action. Over the bulwarks and in the distance is the outline of a warship in full play. The meritorious service medal is for those who have rendered distinguished service otherwise than in battle. It will go to such men as Hobson, Lieutenant Ward, Victor Blue, Lieutenant Buck, and a very few others.

## THE CITY WANTS WATER WORKS.

EITHER GET THE PRESENT PLANT OR BUILD ANOTHER.

The Board of Aldermen met in Special Session—Water and Light Commission and Cemetery Committee Make Reports—Dogs Must Keep Out of the Cemetery and People Must Go in at the Gates—Treasurer Ellington Makes Some Remarks.

The Board of Aldermen met last night in a called meeting. Those present, in addition to the Mayor, were Aldermen Bain, Elam, Helms, Sergeant, Ellington, Sherwood, Merrimon, and Joyner.

The Mayor stated that the meeting was called at the instance of Alderman Sergeant, chairman of the water and light commission.

Alderman Sergeant stated that he thought that it was time that some action was taken in regard to the transfer of the waterworks plant, and that the Board would have to take the initiative, and he presented a report from the water and light commission recommending that the receiver of the water company be requested to immediately transfer to the city the water works, giving the city a clear title to the same, and in case the said receiver failed to do so, that the city proceed to build a water works plant.

Alderman Joyner moved that the city attorney be instructed to inform the receiver of the water works that he must carry out immediately the contract made with the city for the purchase of the water works plant. Carried.

The report of the cemetery committee was then read by the clerk. The report recommends the establishment in a remote part of the city a cemetery for the use of negroes, and that all negroes now buried in Greene Hill cemetery shall be removed to the cemetery to be established. That a hedge shall be planted in front of the cemetery along Greene street, and that the summer house be moved and a fountain placed where the summer house is at present located. It also recommended that portions of the cemetery now being washed shall be properly drained. The report also embraced a number of ordinances, among the principal of which, are the following: That no person shall own more than two lots. That any person desiring to build a monument requiring a base, shall first lay a foundation of concrete, the depth of the foundation to be determined by the keeper. That no person shall enter or leave the cemetery by other means of exit than the gates or entrance. That no person shall take or allow to enter the cemetery any dog, and any dog found within the cemetery shall be impounded. That no person shall kill or hunt birds in the cemetery. That any person may cultivate trees or shrubs in their plot.

The keeper of the cemetery was also made a special policeman with authority in the cemetery.

Alderman Merrimon thought that the price of the plots should be increased.

The present price is from \$20 to \$40.

Alderman Sergeant moved that the salary of the cemetery keeper be fixed as heretofore, viz., \$35 per month and fees for digging graves, and keeping up plots.

Alderman Bain moved that the report be referred to the cemetery committee to adjust the same, as several clauses in their report had been changed. Carried.

Alderman Joyner moved that the cemetery committee examine the plots of the cemetery, and look into the advisability of increasing the price of said plots. Carried.

Alderman Bain moved that cemetery keeper be elected.

Alderman Joyner moved that the election of cemetery keeper be postponed until the next meeting of the Board. Carried.

Alderman Ellington stated that he wanted to make a few remarks concerning the ordinance passed at the last meeting concerning the finances of the city. An account of his remarks appears elsewhere.

Moved that the Board adjourn. Moved and carried that the Board adjourn.

## THE SLANDER CASE.

Interest Is Somewhat Abating—The Attorneys Occupy the Afternoon in Speeches.

The slander case from High Point is still being tried in the court house and three wearied justices of the peace still hold in arm, uplifted, the scales of justice. The forenoon today was occupied principally by expert testimony by physicians. Drs. J. P. Turner and R. K. Gregory appeared for the plaintiffs, and Dr. Burton was put upon the stand in rebuttal. The testimony went to show the virtue of Miss Snider, as being proved by an examination.

The testimony was all heard by noon and the speeches of the attorneys were then commenced. Col. Morehead was the first, and was followed by Mr. Pradshaw, who is speaking as The Telegram goes to press. He will be followed by Mr. Taylor, then Mr. Roberson, Col. Barringer and the speeches will conclude with that of Judge Byrum.

This has been one of the longest cases ever tried before a preliminary court in this city. The court room is fairly well filled this afternoon, but the interest is gradually dying away. At this writing the idea seems to prevail that the case will be sent on to court by the justices. One of the most demoralizing features of the whole case lies in the fact that so many young men, youths, and even boys were present, heard the testimony, and eagerly listened for the vulgar portions of it.

## WEAK PRESSURE CAUSED IT

Insurance Company Refuses to do Business Here on Account of Poor Water Supply.

A report was current on the street yesterday to the effect that a special agent representing a large insurance company was in the city on Saturday last and attended the fire near the depot. Seeing the streams from some of the hydrants, he immediately came up street, and going to the agency representing his firm in this city, cancelled all the policies owned by his company in the city. The facts in the case are as follows: The special agent was in the city, and he came here for the purpose of establishing an agency in this city. He attended the fire on Saturday evening, and upon seeing the poor water pressure, immediately cancelled the steps already taken for the establishment here of an agency of his company. He gave as his reason that he thought his company could not afford to do business where there was such a water supply.

## WIDEN BUCHANAN STREET.

"Citizen" Thinks the Removal of the King Building Not to be Regretted.

To the Editor of The Telegram:

Though the loss of property is always a thing to be deplored, yet the removal of the King warehouse is not to be regretted as it has always stood in the way of street improvement. Now that the obstruction is gone it seems as if the city ought to immediately widen Buchanan street from the Hunter Manufacturing Company so that it may join Walker avenue. People coming into the city for the first time would naturally think there was no way of getting beyond the one block. The city has voted money for "street improvement" and it seems as if in no other place was the improvement more needed than in that place. It is hoped the aldermen will realize this and act promptly. CITIZEN.

## PER CAPITA TAX REDUCED.

Action Taken by the National Council Jr. O. U. A. M. at Buffalo.

Messrs. Tom Thacker and Lewis Howlett, delegates from the State Council, Jr. O. U. A. M. to the meeting of the National Council, which met this year in Buffalo, N. Y., report a most pleasant trip, and a very enjoyable meeting. The order is in a flourishing condition. The per capita tax was reduced 5 cents by the Council. The next meeting of the National Council will be held next June in Milwaukee.

## Goes to Asheville.

Several gentlemen left last night for Asheville to attend the meeting of the Shrine, which takes place there today. Those who went from Greensboro were Messrs. J. Van Lindley, R. M. Albright, A. E. B. Alford, Julian Price, and Geo. J. D. Glenn.

While gone Mr. Lindley will take a look over the horticulture on the estate of Mr. Vanderbilt.

## TREASURER REFUSES TO ACCEDE

WILL NOT LET THE CITY NAME THEIR DEPOSITORY.

Thinks the Action of the Board Placed Him in an Awkward Position—Two Aldermen Make Statements.

At the close of the meeting of the Board of Aldermen last night, Alderman Ellington arose and stated that he desired to make a few remarks concerning the action of the Board at their previous meeting on the subject of the prompt payment of the city's warrants. He stated that the city would lose nothing by reason of his action, and that he begged to differ from the Board in their view of the question. He further stated that he would call in all outstanding warrants, and pay them, and would see that the city borrowed all the money it wanted at no greater rate of interest than that embodied in the proposition of the Southern Loan & Trust Company, which was accepted by the Board at its last meeting. He also stated that he thought the action of the Board placed him in an awkward position, although he felt that it was unintentional on their part.

Alderman Sergeant stated that he thought, and he felt sure every member of the Board agreed with him, that no reflection was intended on the Treasurer, but that it was simply accepting the best proposition for the city's interest. Alderman Merrimon stated that he was a friend of Capt. Ellington's and that nothing in the nature of a reflection was intended by the action of the Board. He further stated that he, as chairman of the Finance Committee, had visited all the banks of the city, including Capt. Ellington's bank, and asked them to submit propositions to the city whereby the city warrants might be paid promptly, and that the Southern Loan & Trust Company was the only bank that had made the city a proposition, and that the Board in accepting it felt that they were doing the best thing for the city's interest.

With that the incident closed, although it is likely that some action will be taken on it at the next meeting of the Board.

The proposition submitted by the Southern Loan & Trust of Aldermen in brief, is as follows: That the Southern Loan & Trust Company agrees to pay all outstanding city warrants, and all warrants issued by the city not exceeding \$25,000 upon presentation, and further agree to loan the city whatever monies it may require, with interest at the rate of 4 per cent, the only stipulation being that the city name the said Southern Loan and Trust Company as the depository of the city of Greensboro.

## A Pleasant Occasion.

Mr. Tom Beall gave a party complimentary to his friends last night at the residence of Mrs. E. A. Holt, on Summit Avenue. The evening was delightfully spent by all present.

Those present were Misses Lizzie Sergeant, Kate Bradshaw, Margaret Merrimon, Bonnie Bishop, Emma Sharp, Orie Lee, Pauline Pretzfelder, Helen Bouldin, Loise Bradshaw, Mamie Banner, of Mt. Airy; Helen Carrol, of Augusta, Ga.; Messrs. Logan Porter, Scott Reynolds, Vivian Blackburn, Jess Mebane, Hill Hunter, Archie Dalton, John Glenn, Hal Murray, Wade Stockard, Martin Douglas.

## A QUIET MARRIAGE.

Occurred Last Night at the Residence of Mr. D. R. Harry, on Asheboro Street.

A quiet wedding took place last night in South Greensboro, at the residence of Mr. and Mrs. D. R. Harry, on Asheboro street. The contracting parties were Miss Matilda Brandt, of Kansas City, who has been visiting in the city for some time, and Mr. W. F. Jensen, of Topeka, Kansas. The ceremony occurred at half-past eight o'clock, in the presence of only a few friends, and was performed by Rev. Sanders Guignard, rector of St. Andrews church. The newly wedded couple left on the vestibule for the Northern cities, and will then go to their future home in Chicago.

## Left for Parts Unknown.

Mr. A. Campbell McGibbon, who since January has been running the Burlington Daily Messenger, left last Saturday for parts unknown. It is said that he left a considerable amount of debts behind him. The paper belonged to a gentleman in Reidsville, and it is not yet known whether the paper will be continued or not.

## THE TELOPTOSCOPE.

Wonderful Little Device That Sends Pictures in Colors.

New York Inventor Succeeds in Producing an Instrument That Will Transmit Over Ordinary Electric Circuit Optical Image.

Philip K. Stern, a mechanical and electrical engineer at 130 Fulton street, New York, said the other afternoon that he has perfected and now has patents pending for an apparatus for the transmission of optical images in colors. The device will be known as the teloptoscope. "The principal upon which the thing works is this," Mr. Stern said: "The transmitter is focused upon the optical image to be sent. The luminous rays are transformed into electric currents and sent to the receiving end over an ordinary electric circuit. One additional wire is necessary, however, for manipulating the receiving apparatus. The electric currents are again employed at the distant end to vary the intensity of the ray of light which is thrown on the receiving instrument.

"The variations of the beam of light at the receiving station corresponds to the light and shadow at the transmitting station. The picture so received will be in one color, but by an arrangement of three colored screens the apparatus will be made to reproduce the proper tints.

"If it is desired to photograph the view reproduced all that is necessary is the placing of a dry plate in the receiver. By this means photographs may be taken in any part of the world of objects in any other part."

## CARRIES YOUNG IN POUCH.

Rat Resembling a Kangaroo Found in a Bush of Bananas at Denver.

While looking over bananas in one of the rooms of his commission house at 1624 Market street, Denver, the other day, G. G. Liebhardt was startled to see a small animal about the size of a squirrel climbing rapidly up one of the walls. He watched it until it secluded itself in a corner of the ceiling, and then called a conference of the help of the house. The employees were all under the impression that it might be a dangerous tropical visitor, so were shy about approaching it. Mr. Liebhardt, thinking he would give it a "run for its money," secured a ladder and took the animal in tow by the tail. This member measured about a foot. The animal itself is scarcely more than five inches long, it has a snout like a bear and bright, shiny brown fur. In a small pouch over its stomach were tucked about half a dozen of its young, which were hardly bigger than tiny lizards. In some attitudes it has a striking resemblance to a miniature kangaroo. When it is approached by anyone it hisses like a snake.

A great many odd animals and reptiles are found in various banana bunches that come to the commission house. The commission which brought the latest animal freak is from Costa Rica. Several parties who saw the "prankish" little object say it is a member of the family of kangaroo rats.

## LOVE AMONG SAVAGES.

Severe Tests Imposed Upon Their Would-Be Suitors by the Girls of Madagascar.

Among the Arabs of Upper Egypt the youth who proposes to a girl must submit to a whipping at the hands of all her male relatives; and, says a dry narrator, "if he wishes to be considered worth having, he must receive the chastisement, which is sometimes exceedingly severe, with an expression of enjoyment."

Not infrequently it is the maiden herself who imposes the test, says Chambers' Journal. The Sakalava girls of Madagascar make their lovers stand at a short distance from a clever spear thrower and catch between the arm and side every weapon flung at them. If the youth "displays fear or fails to catch the spear, he is ignominiously rejected; but if there be no flinching and the spears are caught. He is at once proclaimed an accepted lover."

Worse than this is the trial enforced upon their suitors by the Dongolowee girls. When in doubt as to the respective merits of two rivals, the young lady fastens a sharply-pointed knife to each elbow, then, seating herself between her lovers, she drives the blades slowly into their thighs; and the hero who takes the greatest length of steel without a murmur wins the bride.

Maj. Mitchell, in his "Expeditions Into the Interior of Eastern Australia," says of the natives on the River Darling, that all their ideas of fighting are associated with the possession of gins or wives, and that after a battle the wives "do not always follow their fugitive husbands from the field, but frequently go over, as a matter of course, to the victors." "None but the brave deserve the fair" is a maxim well understood of most barbaric races.

## CHINA AND JAPAN.

Two of the greatest literary productions of the Chinese are a dictionary of 5,020 volumes and an encyclopedia in 22,937 volumes.

Consul General Williams states that Hong-Kong is no place for motor carriages. There are only three carriages of any kind in the entire city.

Robbing graves is the only crime under Chinese law for which the thief may be justly killed on the spot by anyone finding him out.

The Chinese never wear wool—not even in the depth of winter, and, generally speaking, the entire population clothe themselves in cotton all the year round.

In Japan the stranger wonders at the crowded appearance of the tombstones in cemeteries. It is the custom to bury the dead in a sitting posture. The coffins are nearly square and it is possible to bury more of them in a given space than of the oblong caskets.

The postal deficit in Canada last year was \$461,000.

The new French stamps are subjected to much unfavorable criticism in France.

The Argentine Republic has offered a large tract of fertile land to Japan, if it will send her 20,000 immigrants.

Ninety-seven per cent. of Australians can write their names, but only 60 per cent. of the South African population can do so.

Ceylon is setting its house in order against the arrival of the plague. In the past year in Colombo the municipality has had 60,000 rats killed.

In Tartary, onions, leeks and garlic are regarded as perfumes. A Tartar lady will make herself agreeable by rubbing a piece of freshly-cut onion on her hands and over her countenance.

### STRUCK BY LIGHTNING.

#### Child Killed and Others Injured —Boy May Die

Webster, Mass. June 24.—Lightning  
struck the home of Andrew Rusean, in  
East Woodstock, Conn., five miles  
from here, during a thunder storm that  
passed over this region yesterday aft-  
ernoon, killing Ralph, their little son,  
2 years and 4 months old, burning  
Clarence Rusean, 5 years old, so se-  
verely that he will probably die, and  
burning the father and another son,  
Egald, 7 years old. There are hopes  
that the lives of the two later may be  
saved.

All of the victims, with Mrs. Rusean  
and a four-months-old baby, were se-  
ated in the sitting room, waiting for the  
storm to pass over, when a lightning  
bolt struck a large pine tree near the  
house. All in the room was made  
unconscious, but Mrs. Rusean and the  
baby received no injuries except to  
their nervous systems.

The Rusean house is situated on the  
North Grosvenordale road, in an iso-  
lated region.

### Evil of "High Society."

St. Paul, Min., June 24.—Archbishop  
Ireland addressed the graduating class  
of St. Joseph's College this morning,  
and said in part:

One of the greatest evils of the pres-  
ent time is that women in so-called  
high society are coming to regard with  
more and more toleration breaches of  
moral and civic laws committed by  
members of their own sex. In our  
hurried modern life, when men are de-  
voting themselves almost entirely to  
things material, women should pre-  
serve the moral and spiritual side of  
existence. If they do not, the world  
may well fear.

The great fault of American educa-  
tion, the Archbishop said, was lack of  
seriousness. There was no depth of  
thought, no consistency of principles.  
An intellectual levity pervaded society.  
America, he thought, was decidedly in-  
ferior to other countries in intellectual  
culture.

"I believe in the intellectual wom-  
an," continued the speaker. "While  
woman's interest should be primarily  
in the home, yet there is no reason  
why it should be confined there. It  
is folly to belittle woman's influence  
today, for it is widespread and it is a  
power wherever it extends."
